5. Project Management

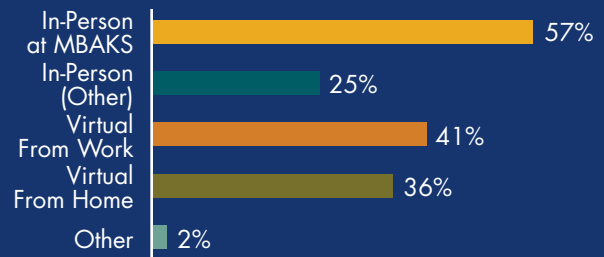

FOR YOUR TEAM

1. Safety
2. Project Management
3. Manager/Supervisor Training
4. Code Classes
5. Sustainability/Green Building

OUR MEMBERS AGREE

IN-PERSON/VIRTUAL PREFERENCE

MEMBER PREFERENCE RESPONSES

Would you use online courses or an online library for "learn at your own pace" opportunities should MBAKS provide one?

If the education program provided a list of suggested classes/instructors and "endorsed them" for members to access on their own, would that be beneficial?

Would you read a blog should the education program start to provide one?

If the education program hosted a book club on a quarterly basis for little to no cost, would you participate?
